- KVWPCA will add ownership transfer of diversion manholes to acknowledgement
 - Borough & KVWPCA may want to switch KVWPCA manhole lids (Sanitary to Storm)
- KVWPCA & Borough to review Parcel A invert issue
 - Outflow higher than inflow
 - May create a future maintenance issue
 - May want to place concrete in invert prior to property transfer

KVWPCA Manhole at end of S. 2nd and River - Erosion around manhole (no change)

- KVWPCA must have a surcharging problem in the line - emailed KVWPCA - no response
- Could eventually expose pipe creating a greater potential for pipe damage & line freezing
- Riprap stone should be placed to repair and prevent future erosion
- KVWPCA should cap abandoned line to reduce infiltration

2014 PADEP required reporting data to KVWPCA by Apollo (no change)

- O&A to prepare calculations and respond to KVWPCA request for data

KVWPCA Project

- Project completion has been delayed from 10/2014 to 7/2015 - total completion longer
- Waiting on project completion & new flow monitoring
- Revised rates will be determined based upon flows
- Apollo should attempt to reduce as much flows as possible to keep rate as low as possible
 - Still need to schedule inspections of Apollo house ports in order to help reduce flow
 - Apollo Borough could pursue CDBG funds to provide low flow toilets for low income residents
 - These toilets would reduce sewage discharges to KVWPCA
 - These toilets would also reduce water usage
 - Overall would provide general and specific cost savings to homeowners
