 - May want to place concrete in invert prior to property transfer

KVWPCA Manhole at end of S. 2nd and River - Erosion around manhole

- KVWPCA must have a surcharging problem in the line - emailed KVWPCA
- Could eventually expose pipe creating a greater potential for pipe damage & line freezing
- Riprap stone should be placed to repair and prevent future erosion
- KVWPCA should cap abandoned line to reduce infiltration
- Manhole lifted off of manhole observed on 11/12/14

KVWPCA Project (no change)

- Project completion - 7/2015
- Waiting on project completion & new flow monitoring
- Revised rates will be determined based upon flows
- Apollo should attempt to reduce as much flows as possible to keep rate as low as possible
 - Still need to schedule inspections of Apollo house ports in order to help reduce flow
 - Apollo Borough could pursue CDBG funds to provide low flow toilets for low income residents
 - These toilets would reduce sewage discharges to KVWPCA
 - These toilets would also reduce water useage
 - Overall would provide general and specific cost savings to homeowners
